PROFESSIONAL SUMMARY

Data Analyst with nearly 2 years of experience in data processing, reporting automation, data validation, reconciliation, and analytics workflows using SQL, Python, and R. Experienced in improving recurring reporting processes, investigating discrepancies, supporting UAT, and collaborating directly with clients and business/technical teams. Recognized for ownership and delivery, with positive client feedback.

PROFESSIONAL EXPERIENCE

- **WNS Global Services** *Jan 2025 to Present*
  Data Analyst | Remote
  - Built automated R, Python, and SQL workflows for data extraction, transformation, validation, and reporting, reducing manual effort and storage requirements by over 80%.
  - Developed the Panther R Shiny application to replace Excel-based reporting, reducing manual effort by over 60% and improving reporting consistency and controlled workflow execution.
  - Worked with large insurance datasets; performed data profiling, missing-value and duplicate checks, reconciliation, standardization, and investigation of reporting discrepancies.
  - Developed SQL queries using joins, window functions, filtering, and aggregations; integrated API-based sources for reporting, reconciliation, and issue investigation.
  - Worked directly with clients and business/technical teams on requirements, UAT, defect investigation, testing, documentation, and iterative delivery using Jira, Git/GitHub, and Confluence.
  - Received the WOW Award for independently driving key Panther deliverables; also received positive client feedback and separate manager recognition.
- **Easyrewardz Software Services** *Oct 2024 to Dec 2024*
  Data Science Trainee | Onsite
  - Developed Python workflows for extraction, cleaning, transformation, API response processing, validation, exploratory analysis, reconciliation, and analytical reporting using Pandas and SQL.

TECHNICAL SKILLS

- **Programming & Libraries:** SQL, Python, R, R Shiny, Pandas, NumPy
- **Data Analytics:** Data Cleaning, Data Validation, Data Profiling, Reconciliation, Trend Analysis, ETL, API Integration
- **Automation & Reporting:** Reporting Automation, Workflow Automation, Excel, Excel VBA, Power BI, Reporting Dashboards, Data Visualization
- **Databases & Tools:** MySQL, PostgreSQL, Hive, Git/GitHub, Jira, Confluence, Linux Basics
- **AI Tools:** GitHub Copilot, ChatGPT, Claude

SELECTED PROJECTS

- **Sale Insight Studio** *Live demo*
  Built a transaction reporting workflow that validates required fields and business rules, separates accepted and rejected records with reasons, summarizes revenue, orders, products, and regions, and exports results to Excel and CSV.
- **Northstar Retention Analysis** *Live demo*
  Built a SQL and Python app to explore revenue trends, repeat purchases, customer cohorts, and historical customer value, with shared filters, customer search, and downloadable reports across dates and business dimensions.
- **ReconIQ, Financial Controls** *Live demo*
  Built a reconciliation workspace to compare transaction ledgers and flag missing records, duplicate keys, and field differences, with exception review, investigation decisions, run comparisons, and report exports.

EDUCATION

B.Tech in Computer Science Engineering *2020 to 2024*
Chaudhary Charan Singh University CGPA: 8.3

ACHIEVEMENTS

WOW Award for contributing key deliverables for the Panther project. Also recognized by the manager for performance and received positive client feedback through direct client-facing work.
